Dear Parent /Guardian

### **Human Papillomavirus (HPV) IMMUNISATION**

The Joint Committee on Vaccinations and Immunisation (JCVI) have advised that we are now extending the HPV vaccination programme to boys aged 12-13. This extension will strengthen protection by herd immunity and prevent more cases of HPV-related cancers. The vaccine is already given to boys in many other countries.

The vaccine has been offered to girls in year 8 for the past 10 years and has dramatically reduced cervical cancer rates.

Dr Baxter would like to invite you to come along to find out more about the HPV vaccination programme for boys before we commence the programme in September 2019.

We have booked the following venues which you can attend. There is a maximum capacity for each venue, so can you please register your attendance by emailing the above email address with which venue you will be attending, and which school in Stockport your child attends.

Stepping Hill Hospital, Pinewood House SK2 7JE  
Cheadle Hulme Private School, SK8 6EF

14<sup>th</sup> May 2019, 6.45pm - 7.30pm  
21<sup>st</sup> May 2019, 6.30pm -7.15pm

Thank you  
Victoria Riley
